

About the Program

The Alberta IoT SUV Program is built for scaleup companies looking to establish themselves in the Canadian market. We are looking for innovative, tech-based companies with a proven revenue stream interested in coming to Alberta. Companies that will create jobs for Canadians, are economically viable and are looking to integrate into the blossoming tech ecosystem in Alberta.

Participating organizations can expect:

2 Years of Alberta IoT & Science Park Membership

8 Weeks – Fast Track Business Accelerator Program, Live Virtual Sessions

1 Full year of support and mentorship from dedicated Business Advisor

1 Full Year of Relationship Manager check-ins for family support/assistance

6 Months of Office Space

Ongoing exposure & connections amongst Alberta business community
